PROCEDIMENTOS

a) At the PC:

- Extract the .AP file from the package to the root directory of the connected USB device. Then disconnect the USB device from the PC and connect it to the receiver.

b) At the Receiver:

Switch ON your receiver and connect the USB device with the stored software to the connector at the receiver. After the USB device has been successfully detected, you can perform the software update according to the following steps:

1. Press MENU button to enter Main Menu. Select USB with the "< >" buttons and press OK to enter.
2. Afterwards select Multimedia, then Music with the "< >" buttons and press OK to enter.
3. Use the "up/down" buttons to select the correct software file and press OK to start the update process. Please consider that the update will take some time and after it is finished a message will be displayed : Update complete. Please restart.
4. Now you can repower the receiver with the power switch.

NOTA - Durante o processo de UPDATE NUNCA desligue o receptor da fonte de alimentação nem no botão ON/OFF, nem retire a PEN USB! Isso poderá danificar o seu equipamento de forma irremediável e perderá a garantia!
